

DrawPro™

DRAW TAPE CAN LINERS

Efficient, convenient, high-performing can liners that can save you time and money, and meet sustainability goals.

DrawPro can liners are the most state-of-the-art, environmentally-friendly draw tape bags available. Made with up to 94% post-consumer recycled resin, these heavy-duty liners offer easy on, easy off convenience that makes collecting and replacing your trash liners quicker.

Turn to Revolution for superior solutions for a variety of applications: office buildings, entertainment venues, convenience stores, airports, K-12 and universities.

- **Reduce Cost:** Holds up to 1/3 more waste than non-drawtape bags.
- **Enhance Health & safety:** Easy draw & tie means less touching, just pull tape and tie off.
- **Increase Productivity:** Save on labor with faster and less frequent bag changes.
- **Improve Your Image:** Bag sizes to fit most common receptacles eliminates unsightly overhang.

Are you ready to **redefine possible?**

Reduce waste. Achieve your sustainability goals. Contribute to a greener future. With our circular approach to plastics, we're redefining the possibilities for sustainable plastic solutions.

Revolution[®]

CREATE

We create & supply sustainable plastic solutions

RECYCLE

We process, clean & recycle the plastic into certified recycled resin

RECOVER

We collect landfill-bound plastic material, providing a new resource for creating plastic solutions

Sustainable plastic solutions

We have a longstanding track record of partnering with companies across a broad scope of industries. Our sustainable loop solutions and custom closed-loop programs can be tailored to fit the unique needs of a variety of markets and help any business meet ESG goals and contribute to a more sustainable future.

Whether you need to irrigate your crops or line the trash cans in your restaurant, we make the sustainable plastic products you need, using as much recycled content as possible.

From collections programs to tolling and brokerage, we recover, clean and process more than 300 million pounds of material each year. The recovered material is turned into a broad line of certified sustainable materials. Our PCR resins are ideal for use in a wide variety of flexible film products.

Join our circle

If you're serious about finding smarter, more effective approaches to sustainability, contact us to discuss how we can help you meet your goals and operate more responsibly. Together, we can redefine possible.
