

Environmental Impact Calculator

Enter Number of Cases Consumed Here* = **7,200**

This is a **38%** reduction!

Metric tons of GHG reduced by using Revolution Bag compared to current product = **48**

But, *really*, what is the impact of the greenhouse gas reduction?

Here are some GHG equivalents for **48** metric tons of CO₂e^{***}:

Number of seedlings that would need to be planted and grow for 10 years = **1,218**

Number of homes powered for one year = **4**

Number of passenger vehicles removed from the road for one year = **10**

* Assuming case is of 100 count 60-gallon liners for Revolution Bag and Corporate Baseline Virgin bags.

** GHG coefficients are based on the Life Cycle Assessment by Scientific Certification Systems

*** All emission equivalents are from epa.gov
