Let Our Team of Experts Help Create a Tailored Solution for All Your Campus Can Liner Needs

We offer a selection of liners to accommodate all types of receptacles. We'll help you identify the right fit to maximize performance and savings across your campus. With our **FREE Campus Audit and Environmental Impact Analysis**, we can show how you will reduce the amount of plastic used from day one.

RevBag Liners Are Ideal For All High-Traffic Campus Use Areas:

Athletics / Grounds | Strength, performance and durability

- For mixed and heavy contents—peace of mind with any type of refuse
- Available with dry load ratings as high as 200 lbs.
- Large capacity liners allow for fewer change outs, helping to reduce labor costs

Housing | Clean appearance that performs

- Today's students recognize the environmental impact of using post-consumer resin
- RevFit™* provides the perfect image with students
- High percentage of recycled content supports student and university sustainability goals

Academic Buildings | Durable performance and versatility

- Use for assorted refuse collection including paper, plastic and liquids
- Both traditional and RevFit* series of liners available in assorted gauges to meet your everyday demands
- High quality, high performing can liners stand up to the most difficult challenges

Student Dining | Ability to handle food & beverage waste

- Star seal bottom for better fit and better leak resistance
- Great with paper, plastic, liquids and food scraps
- Wet/dry load capacity to handle the heaviest of loads—up to 200 lbs. for compactors

Become a part of our global effort that diverts nearly 200 MILLION pounds of plastic from the waste stream EVERY YEAR.
Are YOU ready for the plastic revolution?

* Talk to your sales rep for information on specific sizes, color and thickness options.
